

Be Part of the LTE Opportunity and Grow Your Business!

Upgrading your customers' radio communicator is never an enjoyable task for any alarm company...

But what if it was a profitable one?

Grow your Business and Lower Attrition

Upgrading your customers to the latest communication technology gives you a great opportunity to maintain your relationships — and create RMR-generating opportunities! It's as simple as discussing the additional services your organization already provides.

By adding a **Tuxedo** keypad to your **VISTA**® installations, your customers will have **smart home** functionality— integrated locks, lights, and thermostats that deliver an enhanced user experience and help lower attrition. Your **LYNX** customers can also realize these same benefits by simply adding a **Z-Wave**® module to the installation. **Lyric** customers have everything they need included in the system— just add additional devices and services!

Many of your customers may have already investigated adding smart home technology to their homes after seeing TV ads or hearing about it from friends.

Why not be the first to offer the solution they already want to enhance their lifestyles?

To help you do this, Resideo has created an **LTE Upgrade and Rebate Program**¹ valid from now till the end of the year, where dealers can swap their current installed base of 3G and CDMA radios to the new platform of LTE communicators from Resideo.

Resideo End-to-End Solution

Find Your Opportunities

Review your customers' accounts with AlarmNet 360 Insights and identify opportunities for growth.

Apply For The Rebate

1. Purchase the appropriate LTE replacement radio from ADI²
2. Install the new radio on the premises
3. Using AlarmNet 360, follow the necessary steps for replacing the radio on the appropriate panel

Money In Your Pocket

For each radio replaced with a new LTE communicator, Resideo will apply a **\$20 credit** to the dealer's ADI account. Each credit will be applied on a monthly basis, for the previous month's swap activity.

So what are you waiting for – Go Make Some Money, Install a Resideo LTE Communicator Today!

¹Resideo reserves the right to change or cancel this program at anytime.

²Only radios purchased from ADI are eligible for this program.
